MORGAN TO END **ELECTION FRAUDS**

State Superintendent of Elections Has Greatly Increased Powers as Result of Coalition of State and City.

strong chin and determined mouth Moste resolution and decision, has nths been developing an elaborate plan for preventing fraud at the soming primaries and elections. He is eorge Wilson Morgan, the new Super-tendent of Elections, who voluntarily igned as an assistant to District-At-Jerome, under whom he had an excellent record, to take arge of the elections work. As a resuit of his endeavor his bureau is bet ter equipped to cope with election frauds than ever it was before.

frauds than ever it was before.

Since the day of his appointment he has been busy putting his department in effective working shape. He has initiated several reforms and has originated new methods for preventing fraudulent registration and balloting. One effect of his work became apparent today when thousands of affidavits were received in his office in the Lord's Court Building. These affidavits were any of them have filled in past election times. Court Building. These affidavits were from keepers and proprietors of hotels

ing voters may be harbored.

These unprecedented powers were conferred upon Superintendent Morgan as the result of conferences between Mayor Low, Gov. Odell and Police Commissloner Greene and decided upon as a means of making more effective the work of the State Superintendent, and Tammany has openly charged that this coalition between State and city has been made for the single purpose of preventing a Tammany victory at the polls next November. If any political scheme is hidden in this novel unification of State and city Interests, Superintendent Morgan declares he knows

Knows No Politics.

"I know no politics in my department," he said, with emphasis, to an Evening World reporter to-day. "I am here to prevent election frauds. I purpose to see that the law is not violated, to prevent repeating and to punish all guilty of these offenses. Toward that end it is true I have obtained the co-operation of certain city officials, the one ob-jection to secure a clean and fair

ject being to secure a clean and fair election.

Supt. Morgan's plan is comprehensive. Its first detail includes an inspection of all hotels and an inquiry regarding the patrons. It has long been known that many so-called Raines law hotels are used as lodging places for repeaters. Toward these special attention has been frequired to furnish affidavits setting forth that their hotels fulfill in every respect the legal requirements, but upward of one thousand deputies from the State Department of Elections are making personal inspection of all hotels and lodging-houses daily. Following this comes the inspection by the Health, Fire, Building and Police Departments. Reports of these inspections are forwarded to Supt. Morgan and compared with the affidavit of the hotel-keeper. If there is a discrepancy, prosecutions are at once begun. Supt. Morgan is no stranger to the work of criminal prosecution.

"Ty to" Inspectors.

"Up to" Inspectors.

That there may be no collusion with the police, it has been a ranged between supt. Morgan and Police Commissioner and the police inspectors shall be held responsible for failure to report the existence of any hotel in their districts which does not conform in all respects to the law, or the presence of any origing-house or place of range which may be a harbor for repeaters or floaters.

Discovery of the existence of such makes after an Inspector has made his report, will be followed by charges being preferred against the Inspector. Hatrons of hotels, big and little, will also be reached by the Superintendent of Elections before many days. All permanent residents in hotels will be required to notify Supt. Morgan if they intend to use their hotels as voting residences. Such notification is imperative. Taliure on the part of any patrons to so notify me, "said Supt. Morgan today," will result in a subpoena being issued for that person's presence in court. It is absolutely necessary that we know officially the voting residence of every voter. Hotels in the past have been easy mediums for covering up election frauds, and radical measures are necessary to prevent a continuance of such frauds.

After the Orooks.

her interesting feature of busy Mr. Morgan's work is in rounding ill-mown crooks, independent of lice Department. This is a speature which he has introduced in artment and which is under the all supervision of Chief Deputy inher, also a graduate from Distorney Jerumie office. Deputy is also roung, but he has had a experience and is a hustler like

big and small, Raines and other varieties, throughout New York. The affiants set forth that according to law their hotels filled all requirements. Whether they do or not, Supt. Morgan is prepared to ascertain for himself. If not, the maker of the affidavit will be arrested on a warrant charging perjury. "In enforcing the hotel feature of the law Mr. Morgan sald to-day: "We mean business."

Gets Ample Ald.

Supt. Morgan has brought to his aid all the resources of the city's administration in detecting violators of the registration and election laws. He has, through Mayor Low, been promised the co-operation of the various city departments, with added assurance that if any department head or subordinate shall fall to properly discharge his duty he will be prosecuted. The Superintendent of Elections has never before received such co-operation.

Already Mr. Morgan has a staff of nearly two thousand deputies, each man nearly two thousand there waring that they will be prosecuted. The superintendent of elections has never before received such co-operation.

Young Woman Is Secretly Married and Announcement Is Made by Happy Couple After Wait of Weeks.

Although the ceremony was performed more than six weeks ago, the announce-ment of the wedding of Dr. William R. Latson and Miss Beatrice Cochrane Kountze has just been made. It is said that secrecy was maintained because of the objection of the bride's aunt, Mrs. Robert Seaman, who is best remembered by the public as "Nellie Bly." Mrs. Latson's parents are dead and she has been the ward of her aunt. Her time has been divided between grandmother, Mr. Cochrane. She is neteen years old, and although the ecord of the marriages gives Dr. Lat-on's age as thirty-two, friends declare that he is almost twenty years older.

Dr. Latsen, who is a physical culture enthusiast and editor of a magazine Dr. Latsen, who is a physical culture enthusiast and editor of a magazine devoted to the ideas he supports, went to the Rev. C. W. McPherson, pastor of the Jane Street Methodist Church, on July 20 and arranged for the welding. Next day he took his bride there and they were married. She then went back to the home of her aunt at No. 15 West Thirty-seventh street.

Mrs. Seaman was much excited when she heard of the marriage on Friday night of last week. Although it was

Chicago Concern Says Young Men Must Not Play Races, **Drink Nor Smoke Cigarettes** to Excess.

CHICAGO, Sept. 14.-Absolute prohibition of gambling in any form, particularly by betting on the races, and also of drinking, olgaratte smok ing and dissipation, has been announced by the managers of the Western Electric Company to its employees.

The company to its employees, The company is one of the largest employers of labor in Chicago, more than i,600 being on the rolls.

This notice was posted in the offices, factories and shipping departments:

"Flaying the races and an other forms of gambling, immoral conduct and the excessive use of cigarettes greatly impair one's usefulness. The best business houses in the city do not desire the services of those who fractise any of these things. Notice is hereby given than any employee so abusing himself is subject to dismissal."

Of the 1,600 employees 300 are college graduates, and these, Supt. Mitobell says, are all that can be desired.

"We discovered," said he, "that the habit of playing the races was developing to an alarming extent in the ranks of our employees, and decided to give every one fair warning. Our position in the matter is not puritanical, but no man can indulge in the practices against which our notice is directed and remain morally unspotted.

"As for cigarette smoking, we are convinced that in excess it clouds a man's intellectual powers. Against cigarette smoking in moderation we have no complaint."

The Illinois Central Railway, the Chicago, Burlington and Quincy, Marshall Field & Co. and Farwell & Co. have within ten days posted notices of a similar character. ing and dissipation, has been ann by the managers of the Western Elec-
